

IMPORTANT NOTICE

A pressure sewer system will be constructed on your street shortly.

A sewer service will be installed from the main to the edge of the street right-of-way or permanent easement to serve your property or house as applicable.

Please drive the stake with attached card in the area where you want the new service to be located. Consult your plumber should you require advice on this location.

If this stake is not in place when the sewer construction starts in front of your property, the service connection will be located as shown on the engineer's contract drawings.

Please be patient with the construction, as your street and property will be restored after the installation of the pressure sewer system.

Thank You for your cooperation

Robert B. Our Company
